Dear Mr. To,

Per our telephone conversation on the morning of 12/20/05 with Senior Examiner Keith Black and your Office Action Summary dated 12/08/05 please accept the following clarifications to our Patent Application: 10/822,271 for SAFELANDER.

We firmly believe that we have met all of your wishes and that the SAFELANDER patent will proceed expeditiously.

In the patent claims section we have:

- 1) **amended claims 1-41 such that these claims are definite and clearly & positively specified. The structure, which goes to make up the patent is now clearly specified and all claim(s) are in one sentence only¹;**
- 2) **added to claim 1 the dependent claim 1-m. This was done so as to include the required remote pilot's display in order to clearly make claim 1 functional;**
- 3) **changed the status of claims 16 and 17 to "Currently Amended", clarified them and no longer withdraw these claims from further consideration. They are now referenced to claim 1; and**
- 4) **amended claim 26 to clarify it and to refer to the other claims in the alternative only.**

Note 1: The periods (.) at the end of all dependent claims, with the exception of the last dependent claim of a given claim, have been changed to semicolons (;). Also we have added commas to listed items. We have not shown these periods slashed, or commas and semicolons underlined since by doing this it impacts the legibility of the document. We have included an extra copy of the Claims Section with these hand marked.

There have been no other changes.

Hopefully this removes all objections to the patent.

Yours truly,

Leslie Jae Lenell
